Reminders and Case Study

EVIDENCE REVIEW

- ❖ Cannot stress enough the importance of evidence review
 - While Investigating can be fun this is why you investigate
- ❖ Review everything – Two sets of eyes – at least
- ❖ Don't assume because you didn't experience anything during the investigation that there was no activity.
- ❖ Don't assume because you found something that it proves to be paranormal
- ❖ This is a bad road to go down.
- ❖ TAP's Motto – “when in doubt – throw it out!”

INVESTIGATE!
